## WORKSHOP ON CS GEMS PROGRAM

SL No.	PROGRAM NAME	DEPARTMENT	DATE
1	CS GEMS	COMPUTER Sc.	03-10-2024

The primary focus of the workshop was to enhance teaching methodologies for Computer Science and demonstrate how to make classes more interactive and engaging while covering all essential components of the subject. The workshop introduced us to modern teaching frameworks like the KSA Model (Knowledge, Skills, and Attitude) and the C4 Model, which are critical for comprehensive student development. Mr. Vasudeva emphasized the significance of the CBSE curriculum, the new National Education Policy (NEP), and the OECD framework, which provide a global context for education. He explained how CBSE is incorporating innovative topics into the curriculum, aiming to foster a deeper understanding of Computer Science. A key takeaway from the session was that Computer Science should not be treated as an isolated subject but rather integrated with other subjects to develop interdisciplinary skills. The workshop also highlighted metacognitive strategies to improve students' self-awareness about their learning processes, which can greatly enhance their academic performance. Interactive activities were conducted during the session, allowing us to apply the theories discussed.
